

HAS BEEN PROVIDING SECURE HOSTED DESKTOP SOLUTIONS TO BUSINESSES FOR OVER 10 YEARS

What Is A Hosted Desktop?

A Hosted Desktop works just like a standard desktop computer. To access your hosted desktop, you simply sign on using your physical desktop, laptop or mobile phone and access all your important files and applications securely. All you need is a secure Internet connection and a device.

Using a hosted desktop adds a layer of security and flexibility to your business.

ACCESSIBILITY

Access all those files and applications anywhere with an Internet connection

ISO 9001, 27001 & 270017 PROVIDER

As well as using ISO accredited data centres, Venom IT as a provider also have ISO 9001, 27001 and 270017 accreditations.

With Your Business In Mind

Venom IT wants to understand your business. That's why we don't provide off the shelf solutions.

Venom IT's cloud consultants get to know you, your business and your needs in order to make a bespoke solution, fit for purpose.

Once agreed our Microsoft Certified project managers will scope and build a solution meeting your businesses exact requirements.

"The ability to have my desktop on any device, anywhere, with Venom security and support, make for true mobile working with total peace of mind."

Dominic Main, Director

"Venom IT provides Future Directions with excellent customer service. If ever a problem we can always guarantee it's solved not only efficiently but rapidly. They understand our business needs and make sure those needs are not only met but consistently exceeded."

Paula Braynion, Managing Director
